Once again, this is when my 2 hobbies combined. I combine my new hobby on RC tank with paper model. I made a building model for RC tank diorama and planned to do more. The building is a typical Iraqi or Middle Eastern small house. A setup diorama is relatively important for RC tankers, because it enhance the joy of controlling our miniature scale model tanks. I owned an 1/16 M1A2 TUSK Abrams RC tank, it is a converted Hobby Engine brand with Heng Long electronic as you can see on the pics. There are smaller scale of RC tank that also popular which is 1/24, so I also made it in 1/24 scale. Both files are in PDO format because these are quick modeled and they are not detailed.
