Sherman M4A3E8 "FURY"

Easy Eight

Scale 1:30

As a fan of armored vehicles, especially tanks, Fury is must watch movie. In fact I have not watched this movie yet lol. Since I had the second children, now aged 2 years I have never been able to watch in the cinema again. Friends of the RC tank community had watched it together, but I can not participate. I read the internet that the main plot of this film is the legendary battle between the two tanks, Sherman tank of the United States and the legendary Tiger tank of Germany in World War II. I also know that this film is the only Hollywood film that uses the original Tiger tank, not a replica nor prop. OK, back to the Sherman paper model. In Fury movie, the Sherman that use is M4A3E8 type, or usually called as Easy Eight. This Sherman is different from the other Sherman, bigger tracks, bigger gun. Actually this model tank can be finished last week. But after the model is finished, it felt a bit bland, because something is missing. This tank needs the crew, in order to truly represent the Fury movie. You can build this Sherman with or without the crew. The scale is 1:30
